

# We promise to make you s ile

But don't just take our word for it...  
here's what some of our clients say...

The LANAP surgery for my gum disease was easy and relatively painless. Now it looks like have new gums! Thanks to the team at M Dental – *C. Niall- Australia*

The Dentist was very kind & gentle; he restored my faith in dentists.  
- *K. Brenchley, Napier*

Good explanation of procedure done, great follow ups, good price, warm environment, skilled workmanship. I will tell people to come here.

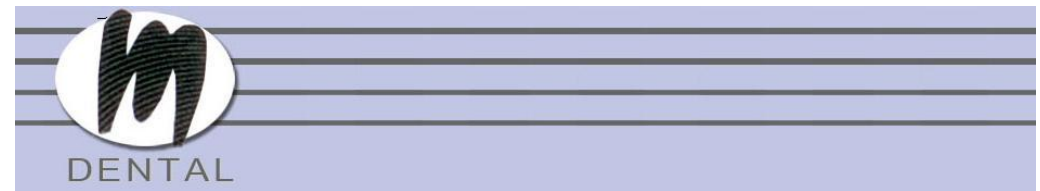

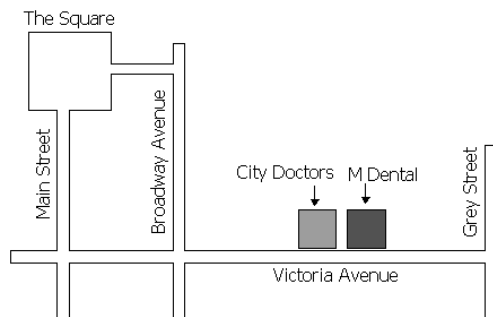

- *E. Farquahar, Palmerston North*

Excellent feedback & friendly service all round. Keep up the high standards; look forward to my next visit.

- *N. Kitching, Palmerston North*

Friendly staff, which helps put patients at ease, the Dentist is great, letting people know what's going on. Excellent service!! Thanks.

- *C. McKay, Palmerston North*

This can be found directly in front of the main entrance.  
It is marked as “Private” and is intended for the use of all patients during their time of treatment at our clinic.

# ☺ Hello and Welcome to Dental! ☺

Thank you for choosing our practice to meet your dental needs.

We take great pride in the services we offer and we would like you to know about them.

Dr. Uday Kasture is our highly qualified dental surgeon who is committed to improving patient well-being by delivering quality dental treatment and care. His practice philosophy emphasizes treatment in preventative care with minimal intervention. Dr. Uday Kasture graduated from Mumbai, India and he went on to do a Masters Degree in Oral Pathology. He received his training in Laser Technology in the USA. He has a special interest in Implantology and Periodontology. He is one of the pioneers of Waterlase and MD Waterlase in New Zealand. He is a member of the New Zealand Dental Association, founder member of New Zealand Institute of Minimal Intervention Dentistry and a life member of World Congress of Minimal Intervention Dentistry.

Dr. Kasture travels frequently to the USA for his continuing education.

Dr. Kasture is supported by Mel, the Dental Chair-side Assistant, Liarna at Reception and Manasi as the Practice Manager. Our practice specializes in many different dental fields and our treatments are the most up to date available.

- **LASER TECHNOLOGY** – uses a patented combination of laser energy and water- a process called hydro-photronics enabling us to carry out most procedures painlessly with minimum intervention.
- **LANAP (Laser Assisted New Attachment Procedure)** – the only laser in the world designed especially for treating Gum Disease. This unique state-of-the-art laser is able to perform a wide range of periodontal treatments – NO cutting! NO suturing!
- **CEREC RESTORATIONS** - Strongest restorative material to date, giving maximum function as well as superior aesthetics.
- **DENTAL IMPLANTS** - Best solution to replace missing teeth permanently. All aspects of implants right from assessment, surgery and post surgical reconstruction and rehabilitation are taken care of by us. **Mini Dental Implants** - Great for ill-fitting dentures; they provide permanent stability.
- **COSMETIC DENTISTRY** – Life-like restorations, eg: veneers, crowns and bridges.
- **TEETH WHITENING** - We have the latest scientifically advanced Zoom 2! System to ensure that complete makeover look.

As well as the above mentioned fields, we also cover all aspects of **General Dentistry**.

M Dental has extremely high protocols and practices in place for sterilization and to avoid cross-infections. It is specially equipped with state of the art machinery:

- **Class B Autoclave**- its sterilization efficiency exceeds NZDA recommendations.
- **Digital Radiography** – minimizes exposure to radiation.
- **Panoramic Radiography** – gives radiographic image of upper and lower teeth and jaws in one scan.
- **Oil Free Compressor** – compressed air, which comes into direct contact with patient's mouths, is produced by a high quality oil-free dry-air compressor.
- **High-powered suction** – takes away mercury vapour safely whilst replacing old amalgam fillings.
- **Amalgam Separators** – environmentally friendly system for safe amalgam disposal.

## TREATMENT PROCEDURES:

Once your emergency dental needs are taken care of, we always recommend a new patient examination to be booked. It involves a complete examination of the teeth and surrounding tissues, scaling and polishing, bite-wing x-rays, consultation and discussion of the treatment plan and the costs involved. Once this examination is completed, you will be well informed about your dental health status and the next appointments can be subsequently planned to suit your needs.

You can feel free to contact us any-time to ask any questions or if you have any concerns about treatment options and costs.

All our quotes are estimates, which mean they are subject to change.

We will endeavour to hold the prices on the estimate for 6 months.

## PRACTICE POLICIES:

### • PAYMENT

Our practice payment policy is **PAYMENT ON THE DAY** unless other arrangements have been made prior to the appointment. We accept cash, Eftpos, Visa & Mastercard ONLY. All debts will be sent to the debt collection agency with the accounting charges added to it. The fees charged at this practice reflect the high standard of facilities and the effort put into giving you the very best dental treatment available.

### • CANCELLATION POLICY

All appointments that need to be rescheduled should be done by a **MINIMUM notice of 48 hours** otherwise a charge will be applicable depending on the length of the appointment. Obviously emergencies occur and the charging of the fee is discretionary to each case. If there are any concerns you may discuss this with the Practice Manager.

## MEDICAL STATUS / PERSONAL INFORMATION:

If any of your personal or medical details change, please advise our reception staff immediately so we can update your records. This is very important for your on-going care.

## FEEDBACK / SUGGESTIONS:

To ensure on-going excellence at our practice, we welcome all feedback and suggestions; please ask reception for a feedback form if you have something you would like to be brought to our attention.

Once again, thank you for choosing our practice to meet your oral health needs.
